

ZIONISTS DIRECT MONETARY FRAUD

JACOB H. SCHIFF, financed 1917 communist revolution, Rothschild agent in Kuhn Loeb & Co., sent to U.S. to replace August Belmont (Schoenberg) as U.S. agent for Rothschild world-wide financial dynasty. **PAUL WARBURG**, Rothschild representative of Kuhn Loeb & Co., who master-

mind illegal Federal Reserve Act and was later removed from Federal Reserve Board because of communist connections. **HARRY DEXTER WHITE**, headed communist conspiracy in U.S. government and was most important architect of U.S. monetary system.

cause the Federal Reserve under the "Act" (imbecility, I should call it) of 1913 has the right to require the U.S. Treasury to have their fiat money printed at cost (about one dollar per million) and turn that boodle over to the Federal Reserve Banks. These banks then gladly buy our government bonds with this money which cost them nothing, and charge the imbecilic government interest! And what made the Federal Reserve raise the interest rate recently? Dear reader, you can figure that out for yourself. You will feel it in your next income tax bill.

Under the mellifluous title of "Foreign Aid", bastard progeny of Lend Lease of ill repute, dripping with graft and malfeasance of officers, there now comes under the microscope for the examination of "you know who", yes, you Tax Payers who can stomach this outrage in ignorance of its portent, the microbe of our fiscal dissolution.

Who but an imbecile would tax his countrymen to "aid" the sworn enemies of his country? Yes, you reply brightly, a traitor. Well, gentle reader, have a look in the microscope, where Foreign Aid, the germ of our undoing, can be clearly seen.

During November, 1964, with presidential blessing, the executives of some sixty U.S. business firms met in Moscow with the Communist Party Executive. Some of these firms produce strategic materials. Thus our imbecilic, or worse, authorities are encouraging the Communist World Conspiracy by providing them with the sinews of War from our own factories. A happy meeting in Moscow, where ways and means of circumventing the restrictions placed by Congress upon this trade were agreed upon with the apparent knowledge and consent of the administration. Altogether a good business for the International Bankers, who are no imbeciles, and can see that this will lead to a big War. And who gains wealth in any big or little War? You guessed, dear reader. And who pays with his treasure and the blood of his sons? Of course, "you know who", the Tax Payer.

Observe the "Works" of our curious "government." If it were really concerned with fighting communism, would it begin in Viet Nam and Korea, thousands of miles away? Or do you think it would, before sending our tax-payers' sons to die in the Far East, do some of the following:

1. Sever diplomatic relations with all communist governments.
2. Recognize governments in exile as the legitimate governments of the communist dominated countries.
3. Stop propping up the economy of communist countries with our Foreign Aid.
4. Clear the communists out of our government, our colleges and our courts.
5. Clear the communists out of Cuba, Panama and Santo Domingo.

We contend that unless the government takes these steps first, it has no business sending the Tax Payers' sons out to die in wars all over the world which are being waged without the authority of a declaration

of war by the Congress, as provided in the Constitution. We have every reason to believe these are the Wars of Mammon, the international modern Pharisees who have somehow got control of our government. And this leads naturally into our next imbecility: the so-called United Nations.

Born under the mid-wifery of Alger Hiss, Harry Dexter White and Gromyko, this illegitimate monstrosity would have died aborning had not President Truman and his Senate committed malfeasance and joined it. We are Tax-Payers to it in spite of the fact that it involved a surrender of our sovereignty, for which there is no authority under the Constitution. These men were not all imbeciles — some were just too lazy to read the "Treaty" and the "Charter", and some were allured by our new god, Mammon. But in the overall, we can classify them en masse as imbeciles. For, who but an imbecile would surrender his country's sovereignty, its right to manage its own affairs, into the hands of an ill-assorted conglomeration of nations and so-called nations, 90 percent of which are non-Christian? And the nation has earned the title of imbecile also for allowing this fraudulent act to stand un-challenged. They sold it to us as a preventive to wars, but more wars, internal and external have been fought since it came into being than in any like period in history.

Let us place this "thing" under our microscope and let the intelligent Tax-Payer have a good hard look. He should know that the

U.S.A. pays 30 percent of the costs of the U.N. and has but one vote against the many, some of which refuse to pay anything. When France and the U.S.S.R. recently refused to pay for the wars waged by the "peace keeping" U.N. in Africa, up stepped our U.N. Ambassador, Arthur Goldberg and generously paid their share and that of others who similarly refused to pay. Mr. American Taxpayer, you will find this generosity reflected in your next income tax bill. And who benefits? Mr. Tax-payer, send to the U.N. secretariat for the names of officers. It will reveal that this monster is a very Red one and control is in the hands of Mammon.

You will find that the Security Council, the military control machinery, is always headed by a communist, present incumbent, Vladimir Suslov. Under the U.N. Charter, all military operations by member nations or by regional organizations such as N.A.T.O., S.E.A.T.O., etc. must be fully reported to the U.N. Security Council. So you see the communists knew what MacArthur was going to do in Korea before he did it. Only in one instance did he manage to keep a secret — when he made the Inchon landing. Apparently he forgot to notify Washington. Now we are in Viet Nam under the same Charter, going to war for S.E.A.T.O., and telling Mr. Suslov what we are doing before we do it. The Charter does not say whether or not the Security Council may transmit this information to Moscow, Peking, Hanoi, etc. From the results of our efforts thus far I would judge that this imbecility is costing the lives of many American Tax-Payers' sons.

If the preceding record does not convince our readers, let us conclude this examination of the U.N. monster by quoting from a U.P.I. dispatch printed in the San Jose (California) Mercury:

"Congressional Republicans proposed that the United States give up some (sic) of its sovereignty in the interests of forming a 'federal union' with its N.A.T.O. allies. The idea was endorsed by prominent G.O.P. figures." This by way of proving that not all the imbeciles are in the Democratic Party. The Great God Mammon apparently is "bi-partisan". This is but a start of the fascinating subject of why this nation may well be judged by friend and foe as a nation of imbeciles. In conclusion let us elaborate upon an old saw: "A fool and his money are soon parted" to make it read: "A nation of imbeciles and their money and sovereignty are soon parted."
